

HS2/AP6 – NPA to update the Inspector on the process of producing a list of historic assets of local importance in the National Park.

Policy 15 is proposed for deletion. The Authority will rely on Policy 8 Special Qualities criterion d) with the reference to Policy 15 deleted and Policy 16 Conservation and Enhancement of the Pembrokeshire Coast National Park criterion d) losing or failing to incorporate important traditional features.

The Authority has concluded that the requirements for a ‘local list’ as prescribed in Cadw’s ‘managing list of Historic assets of Special Local Interest in Wales (May 2017) would be too onerous on the Authority’s resources and would not be a value for money exercise. It has taken the view that the conservation and enhancement of the National Park’s unlisted historic assets can be adequately considered under current policies 8 and 16.

Edits shown in highlighted green.

Policy 8d)

Policy 15 and Policy 16).
d) The historic environment is protected and where possible enhanced⁷⁴ ~~(see also Policy 15)~~.
e) Development positively enhances the National Park’s ecosystems and the components⁷⁵ that

Policy 15 Protection of Buildings of Local Importance

Development affecting buildings which make an important contribution to the character and interest of the local area will be permitted where the distinctive appearance, architectural integrity or their settings are conserved and where possible enhanced.

4.90 The National Park is rich in buildings that are not listed but because of their vernacular architecture and construction are fundamental to the character and interest of the settlement or are important elements in the landscape.

4.91 The following criteria will be used for selection:

- a) degree to which the building remains in its original integrity;
- b) quality of the individual building's architecture;
- c) position and influence on the townscape or landscape;
- d) association with an important local figure or event.

4.92 When considering development proposals, the Authority will give due regard to the difference in status between buildings of local importance and those that are statutorily listed and, hence, the level of protection which they respectively attract.
