

**Amroth** – a small linear coastal settlement set amongst narrow, sheltered wooded river valleys running down from the high ground behind the village to the sea, with cliffs to either side of the open frontage onto the beach. Many buildings are in close proximity to the shingle beach and there are attractive views over Saundersfoot Bay towards Saundersfoot and Tenby

**Amroth**

Centre of Amroth

Eastern edge of Amroth

Centre of Amroth

Steep valley sides and densely wooded backdrop are distinctive features in the village. The continuity of the wooded skyline should not be breached by any proposed residential in-fill development

Western edge of Amroth

**PEMBROKESHIRE COAST NATIONAL PARK  
SETTLEMENTS CAPACITY STUDY - FIELD SURVEY SHEET**

<b>Settlement Name: Amroth</b>						
Date:	9/8/2007	Surveyors:	JC/RM			
<b>LCA's in Local Context</b>	LCA 1 – Saundersfoot Settled Coast Small village set amongst wooded valleys. Strong coastal link adds to the sense of place					Insert details from LCA Study
<b>Settlement Type:</b>	Urban		Notes: Valley enclosure by steep landform and strongly wooded upper valley sides and horizon. Open aspect to sea front.			
	Village	•				
	Harbour					
	Hamlet					
<b>Settlement Attributes:</b>						
<b>Settlement Form:</b>	General:	Linear	Nucleated	Dispersed	Planned	Organic
	Scale:	Large	Medium	Small		
	Density:	High	Medium	Low		
	Pattern:	Linear	Grid	Organic		
<b>Settlement Landmark or Focal Point</b>	Church	Castle	Monument	Cross	Earthwork	Standing Stone
	Large House	High Walls	River	Stream	Pond	Lake/Pool
	Bridge	Ford	Mill	Pound	Green	Hill
	Wood	Sand Shore	Cliff	Rock Shore	Shingle Shore	Estuary
	Bay	Cove	Wood S to E & W	Note Skyline features and direction of view		
	Conservation Area?		Yes/No	Insert Name(s)		
	Listed Buildings?		Yes/No	Insert Number of buildings outside Conservation Area(s) 1		
<b>Settlement Edge Condition:</b>	North	South	East	West	Insert refinements, e.g. NE, SW as appropriate	
	Hard	•			Abrupt transition to surrounding landscape with little or no cover	
	Muted				Smoother transition to surrounding landscape with some vegetation cover	
	Soft	•		•	•	Edge well integrated into surrounding landscape by vegetation cover
	Woodland	• D		• D	• DE	Note <u>D</u> eciduous or <u>E</u> vergreen
	Hedgebank					Note <u>M</u> anaged or <u>U</u> nmanaged
	Wall					Note height and materials

<b>Settlement Edge:</b>	North	South	East	West	Insert refinements, e.g. NE, SW as appropriate	
Views out from within settlement		•			Note photograph location and OS Grid Ref and plot direction and angle of view on plan  To the coast	
Views in from surrounding land		•			Note photograph location and OS Grid Ref and plot direction and angle of view on plan  In from surrounding high ground	
<b>Settlement Landform:</b>	Flat	Rolling/Undulating	Hill & Scarp	Rocky	Convex	Concave
<b>Surrounding Landform</b>	Flat	Rolling/Undulating	Hill & Scarp	Rocky	Convex	Concave
<b>Development Opportunities</b>	Very limited - to very small scale infill residential only, within the settlement boundary.					
<b>Development Constraints</b>	Narrow floodplain, steep valley sides, the continuous wooded character of the valley up to the skyline, and the open sea front, all of which strongly contribute to the sense of place and local distinctiveness.					
<b>Other Notes:</b> If developing infill sites within the settlement boundary, avoid any development which would remove substantial areas of woodland or which would result in breaching the skyline.
