Does the site pass stage one site criteria tests? **Yes**

Stage two evaluation

Ownership	Private		
General overview	This is a domestic garden on a steep slope which has been terraced.		
Greenfield or Brownfield/PDL	Greenfield	Estimated number of dwellings	0
Adjoining uses and access	This site fronts Wesley Road with housing either side and backing onto steep undeveloped land at the rear.		
Visible constraints to development	This is a domestic garden on steeply sloping land. The plot is of insufficient size to accommodate a dwelling without overcrowding this plot and the neighbouring properties.		
Impact on National Park's Special Qualities	The sweep of land around the east of St Brides Bay is characterised by its strong visual relationship to the coast and generally a high degree of exposure. Within this area Little Haven is a small, compact village predominantly contained within a steep valley with a strong coastal character derived from its situation on the coast and the feel of a small, traditional fishing village. Development of this site contained within the built area of the village would not adversely impact on the special qualities of the National Park.
