

## Potential site analysis for site 869, Feidr Brenin, Newport

Associated settlement	<b>Newport</b>
LDP settlement tier	<b>Local centres</b>
Community Council area	<b>Newport</b>
Site area (hectares)	<b>0.18</b>

**Site register reference(s) (if proposed as development site for LDP)** 3432/SR175

### **Relationship to designated areas**

Not within 500 metres of a SAC.

Not within 500 metres of a SPA.

Not within 500 metres of a National Nature Reserve.

Not within 100 metres of a Local Nature Reserve.

Not within 500 metres of a Marine Nature Reserve.

Not within 100 metres of a Woodland Trust Nature Reserve.

Not within 100 metres of a Wildlife Trust Nature Reserve.

Not within 100 metres of Access Land.

Not within 100 metres of a Scheduled Ancient Monument.

Not within 50 metres of a Listed Building.

Within a Historic Landscape Area.

Not within 100 metres of a Historic Garden.

Not within 50 metres of Contaminated Land.

Not within airfield safeguarding zones for buildings under 15m high.

Not within HSE safeguarding zones.

Not within MoD safeguarding zones for buildings under 15m high.

Not within 10 metres of a Tree Protection Order.

Not within 100 metres of ancient or semi-natural woodland.

Underlying Agricultural Land Classification: 3 (1 is Agriculturally most valuable, 5 is least valuable).

Not within a quarry buffer zone.

Not within safeguarded route for roads or cycleways.

Site includes Public Right of Way.

Not a Village Green.

## Stage one commentary

Site is not wholly within a Site of Special Scientific Interest; Natura 2000 site; National, Local, Marine, Woodland Trust or Wildlife Trust nature reserve; or Scheduled Ancient Monument.

Does the site pass stage one site criteria tests? **Yes**

## Stage two evaluation

**Ownership** Mr PJ Farrow

**General overview** This is a roughly triangular field running along a narrow lane towards Newport Parrog.

**Greenfield or Brownfield/PDL** Greenfield **Estimated number of dwellings** 0

**Adjoining uses and access** The eastern boundary abuts a narrow lane and is separated from it by a hedgerow and post and wire fence. The western boundary is the field boundary with further undeveloped fields beyond, separated by a hedge. The northern boundary abuts the rear curtilage of an existing property facing the Parrog and marked by a wooden fence and hedge. The short southern boundary abuts the curtilage of an existing property and is separated from it by a hedge. The current access is in the eastern boundary via a gated entrance.

### Visible constraints to development

**Impact on National Park's Special Qualities** The town of Newport has a strong sense of place based on its long history of settlement with its planned Medieval layout, church and castle at the head of the town. It has an attractive coastal character with maritime industrial and commercial references and attractive views along the coast. Viewed from the north, the town is set within woodland and trees with the church and castle as prominent landmarks. The site is surrounded by mature hedgerows and trees. The site is adjacent to the Conservation Area and is on elevated land overlooking the bay. Development here would impact on the character of the Conservation Area and be prominent in views of the town from the north. It would thus have a detrimental impact on the special qualities of the National Park.

### Landscape impact mitigation measures

### Affordable housing capacity assessment

### General notes

### Development planning history

### Planning application history (planning applications within, overlapping or adjacent to the potential site)

## Summary of geological risk (class A is lowest risk, class E is highest risk)

#Error

## Summary of flood risk (from TAN 15)

Partly within TAN 15 Zone C2

**Public transport service** Services at least hourly, six days a week, including journeys suitable for travel to and from work, schools, morning and afternoon shopping.

### Distance from potential sites to selected services in kilometres

Nearest shop	0.99	Nearest doctor	0.83
Nearest pub	0.86	Nearest Dentist	1.19
Nearest primary school	0.93	Nearest secondary school	10.19
Nearest post office	0.92	Nearest petrol station	3.88
Nearest community hall	0.92	Nearest police station	9.57
Nearest letter box	0.27	Nearest library	9.64
Nearest place of worship	0.87	Nearest cash point	0.84
Nearest sports ground	0.93		

\* Distances are in kilometres, 'as the crow flies'

### Consultee responses

Consultee	Date of response	Response
Countryside Council for Wales	01/05/2008	No adverse comments for Wales
PCNPA Building Conservation Officer	28/05/2008	Just outside the CA boundary, but part of the important outlying area. Its hedgebank and stile are characteristic features and the elevated nature of the site may make development prominent.

Dwr Cymru	21/07/2008	<p>Sewerage – Within this catchment the public sewerage system is performing satisfactorily in accordance with its designed parameters and can accommodate the potential domestic foul flows from the UDP allocations already identified. To ensure the integrity of this system, we would expect the domestic surface water to be discharged to a separate system and controlled planning.</p> <p>Where new additional allocations are promoted through the Local Development Plan, Dwr Cymru Welsh Water will assess the impact of these demands to establish if available capacity exists. Should all the proposed developments proceed at the same time then the available ‘headroom’ would be eroded and improvements to our systems would be required. This being the case, certain developments may need to be phased for release in the latter part of the LDP to allow us the time to deliver these essential improvements. The site is crossed by public sewer(s) which may restrict the density of the development proposed. Under the Water Industry Act 1991, DCWW has statutory rights of access to its apparatus at all times. Protective measures or a diversion of these assets may be required prior to the development proceeding.</p>
Dwr Cymru	21/07/2008	<p>Sewage Treatment - We have numerous Waste Water Treatment Works within the County which are designed to treat foul effluent from residential and commercial/industrial premises. The discharges from each of the Works are licensed by the Environment Agency to meet European Directives. Dependant on the scale of development identified within your proposed Local Development Plan the associated sewerage catchment, and may need to be upgraded as required to accommodate future growth.</p>
Dwr Cymru	21/07/2008	<p>Water Supply – Pembrokeshire Coast National Park is fed from strategic Water Treatment Works in the County. These water treatment works are important assets for Dwr Cymru/Welsh Water (DCWW) in delivering potable water to customers, Commercial, Health &amp; Education premises. DCWW are developing a 25 year water resource plan to meet projected future demands for the County. Based on future demands already shared with us we do not foresee any problems at present in meeting the anticipated domestic demands during the life of the Local Development Plan. Water is a precious resource and in line with Government objectives on sustainable development we would look to promoters of developments to have considered and included where feasible, water efficient devices within buildings and sustainable drainage measures.</p>
Pembrokeshire Highway Authority	04/08/2008	<p>The access road is not suitable for any additional development.</p>
<p><b>Reasons site is suitable for development</b></p>		

**Reasons site is not suitable for development**

The site is elevated and its development would be prominent creating visual intrusion causing harm to the character of the Conservation Area and the special qualities of the National Park.

**Does the site pass stage two tests?** No

**Proposed use** Housing
