Map data – descriptions and sources

Well-being, enjoyment and discovery

Name	Description	Available from (where applicable)
National Park Centres	Pembrokeshire Coast National Park visitor centres and attractions	Derived from Pembrokeshire Coast National Park Authority's property gazetteer.
Active Travel Routes	The Active Travel (Wales) Act 2013 places duties on local authorities and the Welsh Government to improve infrastructure and significantly increase levels of walking and cycling in Wales. Existing active travel routes must be mapped in designated localities and integrated network plans must be prepared for these places. Each local authority is required to submit an Integrated Network Map, showing the aspirational network of routes in their region, to Welsh Ministers for consideration by 3 November 2017.	Pembrokeshire County Council and <u>http://lle.gov.wales/ca</u> <u>talogue/item/ActiveTr</u> <u>avelApprovedRoutes/</u> <u>?lang=en</u>
Accessible Common Land - Open Access - Registered Common Land	Accessible Common Land under the Countryside and Rights of Way Act 2000.	http://lle.gov.wales/ca talogue/item/OpenAc cessOpenCountry/?la ng=en
Dark Sky Discovery Sites	Derived from the Dark Sky Discovery Sites website and site nominations by the National Park Authority.	http://www.darkskydis covery.org.uk/
	Dark Sky Discovery Sites are small, accessible observation sites with good night sky quality, approved by the UK Dark Sky Discovery partnership. Accessibility and safety are key considerations in site selection. On cloudless, moonless nights, Dark Sky Discovery sites should provide enjoy clear views of the night sky, with the Milky Way visible after dark.	

Pembrokeshire Coast Path National Trail and inland Rights of Way	Created and maintained by Pembrokeshire Coast National Park Authority Rights of Way Team and National Trail Officer.	N/A
Potential rural recreation / vehicle management issues	Pembrokeshire Coast National Park Authority, by internal consultation with officers and informal consultation with partners.	Based on NPA staff knowledge and relate primarily to rural areas.

Restoring biodiversity

Habitat Networks action areas	Based on amalgamated Natural Resources Wales focal connectivity networks (i.e. for bog, fen, grass, heath and woodland). Areas which serve more than a single network appear darker.	Habitat networks http://lle.gov.wales/catalo gue/item/HabitatNetworks /?lang=en
Invasive Species Action Areas	A combination of catchments derived from Natural Resources Wales Water Framework Directive Management Catchment Cycle 2 and water sheds created using Ordnance Survey Terrain 50 using the GRASS plugin for QGIS 3.2.2 processing tool <i>r.watershed</i> with a threshold of 50 hectares. Specifically, the coastal watersheds for: Porthgain, Abereiddi, Nolton Haven, Colby and Little Haven were created using OS Terrain 50.	Natural Resources Wales Water Framework Directive Management Catchment Cycle 2: <u>http://lle.gov.wales/catalo</u> <u>gue/item/WaterFramewor</u> <u>kDirectiveWFDManagem</u> <u>entCatchmentCycle2/?lan</u> <u>g=en</u> OS Terrain 50: <u>https://www.ordnancesur</u> <u>vey.co.uk/business-and-</u> <u>government/products/terr</u> <u>ain-50.html</u>
Conserving the Park sites	Sites where the National Park Authority and directly manages, supports or has otherwise had input to land management for nature conservation.	National Park Authority data
Firebreak cutting	Example locations of fire break cuts carried out by Pembrokeshire Coast National Park and the Pembrokeshire Wildfire Group.	National Park Authority data

Celebrating heritage

Scheduled Monuments at Risk (2017)	This dataset consists of the centroids of the Cadw Scheduled Monument polygons for monuments that have shown to be in decline at the 2017 survey.	http://lle.gov.wales/catalo gue/item/ScheduledAncie ntMonumentsInWales/?la ng=en
Maritime Heritage (within 300m of National Park boundary)	National Monuments Record of Wales - Maritime Heritage Assets. This spatial dataset comprises of point data relating to all of the marine heritage assets that have been recorded within the National Monuments Record Wales by the Royal Commission for the Ancient and Historical Monuments of Wales.	http://lle.gov.wales/catalo gue/item/NationalMonum entsRecordOfWalesMariti meHeritageAssets/?lang= en

Managing natural resources

Regionally Important Geological and Geomorphological Sites	Regionally Important Geological and Geomorphological Sites (RIGS) are a voluntary scheme. Local authorities are notified of sites but they have no statutory protection. The dataset also contains spatial information in the form of a layer file which contains RIGS sites data. It is intended that RIGS data be used by any organisation with an interest in the subject matter.	http://lle.gov.wales/catalo gue/item/Rigs/?lang=en
Designated Bathing Water Quality 2018 (where less than 'Excellent')	Water quality at designated bathing waters in Pembrokeshire that is lower than 'Excellent'.	http://environment.data.g ov.uk/wales/bathing- waters/profiles/
Coastal Risk Management Areas	The two Shoreline Management Plans covering the coast of Pembrokeshire are:	https://www.pembrokeshir ecoast.wales/Files/files/D ev%20Plans/LDP2/backg round%20papers/CRA%2

	 The South Wales SMP2 covers the area from Amroth to St Anne's Head (January 2012; finalised 2014); and The West of Wales SMP2 covers the area from St Anne's Head to Cardigan (November 2011; finalised 2014). 	<u>OMethodology%20BP.pdf</u>
	The Plans divide the whole coast into cells and set out a preferred management policy for each cell, divided into 3 epochs, collectively looking forward 100 years.	
	The information contained in the Shoreline Management Plans has been used to identify Coastal Change Management Areas in the Local Development Plan 2.	
	The NPA has published Coastal Change Management Area maps for Tenby, Solva, Saundersfoot, Newport, Newgale, Little Haven, The Gann, Dale, Broad Haven, Angle, Amroth and Wiseman's Bridge.	
Unified Peat Map of Wales	 The Unified Peat Map of Wales is based on a combination of the following layers: BGS surface peat Forestry Commission survey peats Lowland peat survey (NRW) Phase 1 habitat peats (all E class with the exception of E2) 	© Crown copyright: Welsh Government; Contains Natural Resources Wales information © Natural Resources Wales and Database Right.
